Governor
The Honorable Leo Corbet
President, Arizona State Senate
The Honorable Frank Kelley
Speaker, Arizona House of Representatives
Members of the Arizona Legislature

From: J. Michael Low
Director of Insurance

Re: 1981-1982 Annual Report of the
Arizona Department of Insurance

It is my privilege to submit for your review the Sixty-ninth Annual Report of the Arizona Department of Insurance. The annual report is intended to present the relevant calendar year information relating to the insurance industry in Arizona, together with summarizing the regulatory activities and achievements of the Department during the past fiscal year. Like its predecessors, this report endeavors to accomplish that end. However, there are two significant changes in the format of the 1981-1982 annual report.

First, we have expanded the company information reported upon and rearranged the format of that information to present it in a more understandable manner. The companies are listed in alphabetical order and the traditional financial data has been augmented by the following categories: the insurer's mailing address, the administrative office phone, the state of domicile, the date the insurer was first licensed in Arizona, and the lines for which it has been licensed. The expansion of the company information was made possible by the word processing capability that came on line for the Department during this past fiscal year. It is therefore hoped that greater use of this annual report can be made by both the insurance industry and the Department, as well as other interested persons.

The second significant change in this year's annual report is the inclusion of two studies of the property and liability insurance business in Arizona. Both studies, prepared by William K. Robinson, the Department's Chief Actuary, are appended to my narrative statement herein. The first study is a report on the profitability of property and liability insurers doing business in Arizona during 1981. The second study, discussed more fully below, examines the savings to Arizona consumers since the competitive rating law for most property and casualty insurance lines was enacted in 1980. Both reports provide an informative overview of the $1 billion property and liability insurance business in Arizona. The addition of Mr. Robinson to the Department staff during this past fiscal year has greatly improved the capability of the Department to engage in meaningful economic analysis and serious technical review of individual insurers and insurance markets.

In the past two annual reports, I have outlined the broad strategic goals for this agency. They remain unchanged. The Department has sought to lessen government involvement in the insurance marketplace by promoting the concept of competitive rating for all property and casualty insurance lines. While deemphasizing the Department's role in price regulation, we have sought to carry out a highly visible public information program designed to broaden the consumer's knowledge of and interest in insurance prices, products and practices. Additionally, the Department has a strong commitment to tough, no-nonsense enforcement of the insurance laws against fraudulent and misleading sales practices. Indeed, I take great pride in emphasizing the many disciplinary proceedings undertaken by this agency against companies and agents who have defrauded or misled Arizona policyholders. At the same time, we are deeply interested in maintaining a balanced and professional regulatory climate that promotes the growth and vitality of the overwhelming majority of legitimate insurance companies, agents and brokers.

In order to better understand the specific actions undertaken in furtherance of these objectives, it would be useful to outline the organizational structure of the Department and summarize the general activities of its component divisions during fiscal year 1981-1982.

## I. Department Divisions

The Insurance Department is organized into six divisions. As of June 30, 1982, the divisions were Life and Disability, Property and Casualty, Examinations and Admissions, Consumer Affairs and Investigations, Hearings, and Administration and Licensing. Each division chief reports to the Director and is charged with overseeing the specific responsiblities, arising under the Arizona Insurance Laws, assigned to the division. The Director is assisted in the overall administration of the agency by Chester Flaxmayer, the Special Assistant to the Director.

### A. Life and Disability Division

During most of fiscal year 1981-1982, Earl Nagel, CLU, was the Assistant Director in charge of the Life and Disability Division. Mr. Nagel retired from the Department in June of 1982, and he was replaced by Andrea Lazar, a hearing officer with this agency. The Life and Disability Division is responsible for reviewing all policy forms and advertising materials relating to life insurance, health insurance, hospital and medical service coverages, credit insurance and annuities in order to ensure that such forms are consistent with the requirements of the insurance laws and the regulations of the Department. During the past fiscal year, the division approved 16,648 forms, while disapproving 1,072. It should be noted that the number of disapproval orders increased approximately 88% from those issued during the prior fiscal year.

Division personnel again concentrated much of their attention upon Medicare supplement insurance. Arizona was one of the first states to be certified as meeting the tough regulatory requirements prescribed in Public Law 96-265, popularly referred to as the Baucus Amendment. The Department's regulation in this regard, Rule R4-14-606, was deemed in full compliance with the Baucus Amendment, thereby permitting this agency to continue to regulate this important coverage without federal preemption. The Department followed up its certification by conducting a sweep of existing Medicare supplement policies and issuing appropriate disapproval orders to eighteen insurers who failed to upgrade their coverages. Of interest, the division, together with the Consumer Affairs and Investigations Division, prepared a comparison of various Medicare supplement policies sold in the marketplace which was used to advise and counsel senior citizens about differences in coverages and premiums. The Assistant Director of the division continued to serve as the Department's liaison with the Senior Citizens Health Insurance Advisory Committee, a body formed by the Director to focus upon the health insurance problems of the elderly. Additionally, as part of the Department's overall effort in this area, division personnel and the Arizona Association of Life Underwriters mapped out a joint strategy to address the information void confronting many senior citizens relating to supplemental health insurance policies. This program, known by the acronym "SCHIC" (Senior Citizens Health Insurance Counseling), vividly demonstrated that the professional and ethical elements of the insurance industry are vitally interested in helping Arizona senior citizens gain useful knowledge about such coverages. The program featured life underwriters; in conjunction with Department representatives, training senior citizens to act as counselors within their communities. Fifteen classes were conducted throughout the state in the following locales: Phoenix, Casa Grande, Yuma, Sun City, Tempe, Cottonwood, Sierra Vista and Kingman. The program generated a great deal of interest wherever it was held and was uniformly praised by senior citizen participants as a successful consumer education project.

## B. Property and Casualty Division

The Property and Casualty Division was headed by Mr. Emil Barberich, the Chief Deputy Director, during fiscal year 1981-1982. The division was responsible for administering Arizona's competitive rating law, as well as overseeing the regulation of qualified service companies, surplus line brokers and third party insurance administrators.

In 1980, the Arizona Legislature, at the strong urging of the Insurance Department, enacted a competitive rate law for most of the property and casualty lines. This legislation represented a change in regulatory philosophy inasmuch as the new competitive rate law replaced the existing prior approval-type system administered by the Department. Under competitive rating, an insurer is permitted to respond immediately to the marketplace by establishing and using a particular rate level for the policies it sells without first obtaining the approval of the Department. Competitive rating emphasizes the marketplace as the principal regulator of insurance prices. The role of the Department's Property and

Casualty Division was redefined to one of monitoring competitive activity and encouraging consumers to shop for the best insurance values.

During fiscal year 1981-1982, the division undertook four surveys relating to rates and underwriting rules as part of its monitoring effort. Further, the division prepared and published an auto insurance premium comparison and assisted in the publication of a complaint ratio for personal lines insurers. The division also prepared and issued a homeowners insurance guide, explaining the nature of homeowners insurance coverage, together with publishing a premium comparison of the rates of the forty-three insurers that actively sell this coverage in Arizona. Hopefully, the activities of the division assisted Arizona policyholders in gaining a better understanding of the homeowners and private passenger auto insurance markets.

Clearly, policyholders in both the commercial and personal lines have substantially benefited from the increased emphasis upon competition. As previously mentioned, appended hereto is a study by the Department's Chief Actuary, William Robinson, that estimates the total savings to consumers in Arizona from the enactment of the competitive rating law in July of 1980 through December 31, 1981. Mr. Robinson's analysis takes into account inflationary trends, industry growth factors, individual growth trends by line of insurance and unique Arizona market conditions. As can be seen, it is estimated that Arizona policyholders have already received approximately $50 million in aggregate savings due to open rating and increased competition.

The Property and Casualty Divison is also responsible for overseeing the Department's rate regulation of workers' compensation insurance. Workers' compensation was excluded from the original competitive rating law enacted in 1980. However, in 1981, Governor Babbitt formed a Workmen's Compensation Rating Study Commission, which I had the honor to chair. The commission conducted a series of public meetings on the issue of increasing up front price competition in this insurance line. The commission ultimately proposed a separate competitive rating law for workers' compensation; however, that measure did not pass during the 1982 Regular Session of the Arizona Legislature.

Regardless, the high visibility given this issue by the commission resulted in the first ever downward deviation being filed by a private insurer in this state. At the end of fiscal year 1981-1982, no less than forty-seven companies had reduced premiums from the basic industry rate level; the deviations ranged from 10% to 27.5%. When one considers that fourteen months prior thereto no rate deviation had ever been filed by a private carrier in Arizona, the competitive environment recently created for workers' compensation has substantially redounded to the direct benefit of Arizona employers. As a matter of fact, William Robinson estimates that the various rate deviations, together with the overall reduction in the manual rates for workers' compensation, have resulted in a net savings to Arizona employers of approximately $58 million, as of December 31, 1981.

It should also be pointed out that in June of 1982, the Department approved a highly innovative schedule rating program for workers' compensation which permits insurers to award up to a 25% premium credit to those employers who take direct action to improve the safety conditions of their work place. This schedule rating program, which twelve insurers had adopted by the end of the fiscal year, should provide a direct financial incentive for employers to improve work place safety and thereby reduce industrial accidents.

The Property and Casualty Division also issued eighty-five qualified service company permits covering sellers of vehicle service contracts and home warranty plans during the past fiscal year. The division assisted the Chief Hearing Officer, Jeffrey Larson, in developing proposed legislation designed to simplify the qualified service company licensing process. Additionally, the division has responsibility for overseeing the Department's limited regulation over surplus line insurance. During fiscal year 1981-1982, the number of companies authorized to write surplus line insurance increased by approximately 33% to 120. Finally, this division issued 106 new or renewal certificates qualifying third party insurance administrators.

## C. Examinations and Admissions Division

The Examinations and Admissions Division is headed by Mr. Roy Gill, CFE. The division conducted 112 financial examinations of insurers authorized to transact business in Arizona during the past fiscal year. The division also prescreened and admitted sixty-six new Arizona insurance companies and fifty-two foreign and alien insurers. As of June 30, 1982, Arizona had 1,841 licensed insurers authorized to transact business in this state. Without question, Arizona has more licensed insurers than any other state. During the past fiscal year, licensed domestic companies increased from 573 to 636, while foreign admitted carriers increased from 1,131 to 1,205.

This division also has the responsiblity for the collection of premium taxes and fees. During fiscal year 1981-1982, $32,537,512.31 were collected and remitted to the State General Fund, together with another $1,478,906.40 in various license and miscellaneous fees. When the premium tax allocations that are paid to the Industrial Commission, the Highway Patrol Retirement Fund and the Fire Fighter's Relief and Pension Fund were added together, the total premium taxes and fees collected on behalf of the State of Arizona by the Department during 1981-1982 was $41,982,649.11. By way of contrast, the Department's entire budget for the same period of time was $1,755,260. It should be noted that the premium taxes collected this past fiscal year were approximately $1 million less than those collected during 1980-1981. This was principally due to the $2,661,994.00 in deductions claimed by property and casualty insurers relating to the assessment conducted in order to reinsure the Arizona Joint Underwriting Plan (AJUP) pursuant to the emergency enactment of Senate Bill 1098 in 1981.

### D. Consumer Affairs and Investigations Division

The Consumer Affairs and Investigations Division is responsible for the dual function of carrying out the Department's consumer assistance program and conducting investigations for possible administrative hearings or litigation regarding violations of the insurance laws and the Department's regulations. This division, which was headed by Marc Stern during 1981-1982, also includes the Tucson office of the Department under the direction of T. E. Morales.

During the past fiscal year, the division received over 4,300 written complaints and approximately 17,800 telephone complaints from Arizona policyholders and claimants. The division, acting as an informal arbiter and mediator, was able to successfully assist Arizona policyholders in obtaining settlements from their insurers in an amount of approximately $3.3 million. Moreover, the division operated a statewide consumer hot line (1-800-352-5485) so that policyholders throughout Arizona could contact the Department if they had questions or problems relating to insurance. The hot line generated more than 950 telephone calls from Arizona communities outside Maricopa County during the past fiscal year. The division assisted in the distribution and dissemination of the Department's consumer information materials to the public, including the auto and homeowners premium comparisons, the homeowners insurance guide, the Medicare supplement shoppers' guide, the personal lines complaint ratios, as well as other informative items.

The division employed two consumer specialists to answer incoming consumer telephone inquiries and to assist in the taking of complaints. The division also oversaw the implementation of the Unfair Claims Settlement Practices Act and regulation. Seventy-six insurers were cited for unfair claims practices after the effective date of the Department's regulation, Rule R4-14-801. Seven companies were targeted for market conduct examinations relating to their claim practices. And one insurer was fined $25,000 and ordered to cease and desist from its practice of delaying claims payment until a policyholder complained in order to earn additional interest on the money it had invested.

## E. Hearing Division

The Hearing Division, under the leadership of Jeffrey Larson, Chief Hearing Officer, is responsible for conducting all disciplinary proceedings against companies and agents, as well as conducting all hearings on acquisitions, mergers and withdrawals involving Arizona insurers. During fiscal year 1981-1982, the division conducted hearings and issued disciplinary orders revoking, suspending or fining the licenses of forty-one insurance agents. Additionally, the division prepared and issued ten orders denying the license applications by would-be agents. The division also suspended or revoked twelve insurer certificates of authority, while issuing five supervision orders and three conservatorship orders. The division conducted hearings and ruled upon applications involving thirty-seven acquisitions of insurers, thirteen mergers and sixteen withdrawals from insurance business.

The division also was instrumental in developing and drafting all Department regulations. The rules which were adopted during the past fiscal year include:

Rule R4-14-606. Medicare Supplement Insurance.

This regulation was patterned after the NAIC model Medicare supplement rule and was amended in order to bring Arizona's regulation of Medicare supplement policies into compliance with the Baucus Amendment. The final amendment of this rule resulted in the qualification of the Arizona regulatory program and means that regulatory oversight of Medicare supplement insurance policies wll continue by the State of Arizona.

Rule R4-14-604. Credit Life and Credit Disability Insurance.

This rule was developed after a comprehensive study was undertaken by the Department's Chief Actuary, William Robinson, relating to the appropriate prima facie rate to charge for credit life insurance. The rule reduced the basic rate from $.50 per $100 of coverage to $.44. Additionally, under the rule, the Department will review the prima facie rate level periodically, but not less than once every three years, in order to assure that the rates are developing the appropriate loss ratios. It is expected that Arizona consumers will receive substantial savings in their credit life insurance rates due to this mandated reduction in the prima facie rate.

Rule R4-14-408. Hospital and Medical Service Corporations.

This rule was adopted pursuant to authority granted the Director under ARS §20-821. Essentially, this regulation makes all hospital and medical service corporations (*i.e.*, Blue Cross and Blue Shield type corporations) subject to the rulemaking authority of the Director, particularly with respect to the market conduct activities of such corporations.

Rule R4-14-217. Coordination of Benefits.

This rule established standards whereby benefits under two or more group health insurance policies are coordinated and the determination as to which policy pays first is made on a uniform basis. It is expected that this rule will eliminate the existing confusion regarding which group policy should pay, particularly in cases involving children of divorced parents, thereby substantially expediting the claims payment process.

Rule R4-14-801. Unfair Claims Settlement Practices.

This rule establishes clear and reasonable standards for the fair and prompt handling of the approximately $1 billion in insurance claims annually paid in this state.

### F. Administration and Licensing

The Administration and Licensing Division is headed by Walker Riddle. The Licensing Supervisor is Shirley Wutz. This division provides basic administrative support to the Director and oversees the licensing of all insurance agents in the state. During fiscal year 1981-1982, the licensing section issued 7,391 new agents licenses and renewed 8,371 existing agents licenses. The total number of agents licensed at the end of the fiscal year was 20,581. Several of the changes in the licensing procedures reported upon in last year's annual report continued to improve the Department's efficiency in processing applications and expediting the overall licensing process.

The foregoing was intended to briefly review the general activities of the Department during last fiscal year. Again, the emphasis of the Department has been to undertake a reasonable and balanced regulatory program aimed at eliminating fraudulent sales activity, protecting against insurer insolvency, increasing the public's knowledge of and interest in topical insurance matters and rendering uniform, consistent and responsible regulation over the Arizona insurance industry.

## II. 1982 Insurance Legislation

The 1982 Regular Session of the Arizona Legislature again resulted in the enactment of several significant insurance bills. Four measures requested by the Department were passed by the Legislature and signed into law by Governor Babbitt. Additionally, other major pieces of insurance legislation were approved. Many of the bills were housekeeping measures designed to clarify existing provisions of the insurance laws. Regardless, I thought it would be useful to briefly summarize the new insurance laws:

H.B. 2018. Chap. 271 Life and Disability Guaranty Fund.

This bill changed the definition of "premium" to be consistent with that used for purposes of figuring premium taxes. The aggregate liability of the guaranty fund board is limited to $100,000 for cash value or annuity claims and $300,000 for all claims including death benefits.

H.B. 2021. Chap. 92 Statutory Agent.

The Director may be the statutory agent for a domestic insurer. This bill also requires that disclosure statements by foreign insurers must be filed with the Director annually.

H.B. 2132. Chap. 100 Arson Reporting.

An insurer filing information relating to a fire loss may request and receive information from a law enforcement authority regarding the fire loss.

H.B. 2162. Chap. 214 Examination Fees.

This bill requires that Blue Cross and Blue Shield type corporations must pay the same costs of examination as insurers.

H.B. 2164. Chap. 34 Standard Valuation and Standard Nonforfeiture.

This measure, which is an NAIC model, amends the standard valuation law and permits the use of a variable policy loan interest rate.

H.B.2203. Chap. 317 Home Health Services.

This measure authorizes the Director to establish guidelines for insurers to determine what home health services should be provided pursuant to law.

H.B. 2232. Chap. 104 Service Companies.

This bill establishes a limited regulatory framework for qualified services; i.e., firms that sell home warranties and vehicle service contracts. The measure establishes a licensing procedure, a financial deposit requirement and prescribes minimum standards of conduct for qualified service company operations.

H.B. 2333. Chap. 298 Mandatory Auto Insurance.

This bill establishes procedures whereby vehicle owners must affirm that they are in compliance with state financial responsiblity requirements, together with procedures by which the Motor Vehicle Division will randomly sample not more than 10% of registered vehicles to verify compliance.

H.B. 2361. Chap. 118 Mechanical Reimbursement Reinsurer.

This bill creates a new category of reinsurer relating to mechaical reimbursement insurance risks.

S.B. 1111. Chap. 245 Premium Tax Credit.

This measure amends ARS §20-156 by authorizing a premium tax credit for domestic insurers for the costs of Department examinations. The credit is amortized over a three-year period.

S.B. 1117. Chap. 167 Receivership Liquidation Fund.

This bill creates a special fund from contributions by all insurers in receivership out of which common receivership expenses are to be paid.

S.B. 1291. Chap. 30 Debtor Groups.

This measure removes the prior cap regarding the amount of insurance with respect to group credit life insurance.

The foregoing summarizes the insurance legislation enacted by the Thirty-fifth Legislature during the 1982 Regular Session. I would like to specifically thank all members of the respective insurance committees of the Legislature, the Senate Commerce and Labor Committee and the House Banking and Insurance Committee, for extending this agency and myself every courtesy on matters relating to the insurance legislation under consideration. I believe that the Department has a good working relationship with the Legislature and that tremendous strides have been made in the past few years in improving the insurance regulatory framework in this state. I would like to specifically acknowledge the significant aid and effort provided by Senator Jim Mack of Tempe, Chairman of the Senate Commerce and Labor Committee, and Representative Bill English of Sierra Vista, Chairman of the House Banking and Insurance Committee, in working with the Department on many of these newly enacted laws.

## III. Proposed 1983 Legislation

A principal responsibility of the Department is to propose amendments or changes to the insurance laws for consideration by the Arizona Legislature. There are four major proposals that the Department will be recommending during the 1983 Regular Session of the Thirty-sixth Legislature.

First, the critical issue facing insurance regulation today is the problem of maintaining an adequate funding level for state insurance departments. Obviously, the current fiscal condition challenges all of state government to do a better job with less resources. The Department has endeavored to do just that by redoubling its effort, sharing responsibilities and working harder with less in order to maintain effective regulation in the public's interest. The Department's 1982-1983 budget was recently reduced by 10% and the Legislature trimmed the Department staff from sixty-six to sixty positions. Subsequently, a further 10% reduction requested by the Governor has resulted in vacating and shelving four more positions within the agency. The net effect of these reductions has been to substantially increase the workload carried by several key personnel.

The Department is absolutely committed to working with the Governor and the Legislature to constructively address the problems created by the decline in state revenues. Therefore, it is of vital importance that a long-term solution providing an adequate and assured source of funding for the Insurance Department be developed. Accordingly, we will be requesting that the Legislature consider establishing a dedicated fund based upon the license and other fees (not premium taxes) collected by the Department. This fund hopefully would permit the Department to function at an operational level consistent with its responsibilities. It should be noted that several states have established dedicated funds for their respective insurance departments, California and Oregon being two recent examples here in the West. Regardless, the continuing ability of the Department to competently and effectively regulate this complex and all embracing industry is dependent upon finding a solution to current budgetary reductions.

The investment sections of the Arizona Insurance Laws have not been amended or changed in almost thirty years. I recently appointed an investment law advisory committee to assist the Department in examining insurer investment requirements and making appropriate recommendations regarding changes in these sections. It is, of course, of considerable importance that we endeavor to modernize and update the investment provisions to permit Arizona insurers the necessary flexibility to respond to today's market conditions without compromising basic policyholder protections. My long range goal is to create the kind of regulatory system which will encourage the growth and success of Arizona domiciled full legal reserve insurers. Towards that end, the Department will be forwarding the recommendations of the advisory committee to the Legislature in order to establish a modern and realistic approach to the regulation of insurer investments.

I also intend to renew the proposal for a competitive rating law for workers' compensation insurance. While I recognize that the insurance industry is divided on this issue, it is my firm opinion that a reasonable competitive rating proposal, one designed to protect the legitimate aspects of the workers' compensation data base, is ultimately in the best interest of both policyholders and insurers. During the past few months, I have chaired the Workers' Compensation Task Force on behalf of the National Association of Insurance Commissioners. That task force has closely studied the Arizona proposal and competitive rating laws recently enacted in other states and has carefully drafted a workers' compensation competitive rating proposal for adoption by the full NAIC in December of this year. Because the NAIC proposal will address the principal concerns relating to the preservation of the workers' compensation data base, it is my hope and expectation that this measure will be adopted here in Arizona in 1983.

Finally, recent problems have surfaced relating to the regulation of self-funded multiple employer trusts (METS). These entities frequently claim a federal exemption from state insurance regulation which permits them to engage in their unlawful insurance sales activities pending the issuance of an injunction after the Department files a court action. Although Arizona has reacted aggressively and quickly to these unauthorized insurers, complications due to the length of litigation and the out of state location of assets frequently delays and impedes the ultimate resolution of the case to the detriment of Arizona claimants. Under the Department's proposal, which is patterned after an NAIC model, these self-funded METS are presumed to fall under the state insurance laws and they, not the state, must shoulder the burden of proving that a federal exemption from regulation exists. It is hoped that this law will substantially retard the ability of these organizations to form and market their illegal insurance products in Arizona.

## IV. Conclusion

The Arizona Department of Insurance is committed to working with the Legislature, the insurance industry and the public to improve the overall quality of regulation in this state. We have a vital insurance industry and a favorable business and regulatory climate. The two together demonstrate that Arizona will continue to experience growth and competitive activity in the transaction of insurance business. The role of the Department will be to maintain a balanced and responsible regulatory environment in which the insurance industry prospers and the Arizona consumer is well served.

RE: 1981 ARIZONA PROPERTY AND CASUALTY BUSINESS

Attached are reports on the 1981 Arizona property and casualty business showing the results of the top ten companies writing in each line of business reported. We have enclosed tables showing the major property and casualty lines of business and omitted some which we considered too small in amount to be included.

The premium and loss information is given by company group so it includes the combined results of all companies within a group. The information as to premiums written, earned, and losses paid and incurred was obtained from page 14 of the filed annual statements. For each line of business the top ten companies are ranked by volume of premium written. Summary totals of the top ten are included, as well as the total for all companies writing that line. This latter information was obtained from A. M. Best & Co., Inc. data.

The bottom section of each page shows the combined gain or (loss) results of the top ten groups. The annual statement insurance expense exhibits were used to obtain the various group percentages for expenses, investment income allocation, and dividends. An example is the "Fire" line of business, which shows premium earned of $9.973 million with losses, expenses investment income and so forth totaling $11.056 million. The net loss on Arizona business was $1.083 million or 10.86 percent of the premium.

The last sheet shows the "1981 Summary - Top Ten Companies". This is different in composition from the line business pages as it only contains information for the top ten ranked by premiums written. This means that a number of those shown in the top ten company groups by line of business are, of course, not shown in this final summary report. This last page is of interest because it shows the top ten earned about $539 million of premiums with an estimated gain of $32 million.

DATE: JULY 19, 1982

TO: J. MICHAEL LOW

FROM: WILLIAM K. ROBINSON

RE: OPEN RATING LAW - CONSUMER SAVINGS

In July, 1980, the Open Rating Law went into effect in Arizona. The intent of this was to provide open competition between companies for the principal property and casualty insurance lines. Certain lines such as assigned motor vehicle risks, medical malpractice, workers' compensation, and title insurance were not included in open rating and would continue to be regulated under the existing rating system.

One of the objectives of the new law was to provide an environment of fair competition which would result in savings to the consumer. In order to measure the magnitude of savings to date we have compiled figures using four representative lines of business. We feel the analysis of these lines will give a good indication of the effect of open rating.

Following is a listing of the four lines with their premium writings for 1980 - 1981:

| | (000 Omitted) | |
|---|---|---|
| Line of Business | 1980 Arizona Premiums | 1981 Arizona Premiums |
| Commercial Multiple Peril | $101,998 | $ 98,582 |
| Other Liability | 71,278 | 68,762 |
| Other Commercial Auto. - Liability | 55,278 | 49,693 |
| Other Commercial Auto. - Phys. Dama. | 27,903 | 27,733 |
| Total | $256,457 | $244,770 |

This shows a decrease in overall writings of about 4.6%. However, before we draw a conclusion that this is due to open rating, we need to consider other economic indicators which may have had a bearing of the results.

Factors which influenced premium levels were as follows:

1. Inflation - Each year costs increase. Auto and home repair costs rise. Material and construction costs go up, etc. We would expect the premium writings to increase each year due to inflationary trends and have adjusted our figures to reflect this. When doing this we used indexes based upon the tables shown in Mr. Norton E. Masterson's article entitled, "Property-Casualty Insurance Inflation Indexes". This article is contained in the Casualty Actuarial Society

publication, "Inflation Implications for Property-Casualty Insurance" (1981).

2. Industry Growth - A factor for the yearly increase in the growth of business in Arizona has to be considered in interpreting data. The business of insurance in Arizona has been expanding for a long period of time due to the increase of industry and employment. Of particular interest would be the pattern between the years 1980 and 1981 which was the period of this study. We would expect a slowing down as a somewhat stagnant economy persisted in the 1980 - 1981 period. Index factors for this were determined from the annual Insurance Department reports. These showed a definite decrease in the level of new writings. Also, there was a fairly consistent correlation between Arizona results and those throughout the industry.

3. Growth Trends by Lines of Business - In addition to industry growth patterns would be the individual trends by line of business. While the overall writings may be going one direction, a line of business may be going the opposite way. Trends by line of business were obtained from A. M. Best & Co. reports entitled, "Review and Preview" (January, 1982).

4. Arizona Market Conditions - Interviews of leading company managers were conducted by Deloris Williamson, Chief Deputy Director, in order to obtain information regarding the line and industry changes within Arizona during the period under study. These specifically covered the question as to how the open rating law had affected the price levels of their business. Along with this were inquiries as to each particular company's emphasis on market aggressiveness and how that, too, may have affected the rate levels.

We feel it is important to mention that consideration was given to all of the above economic elements as, collectively, they have affected the aggregate amount of premium income in the state. Some, of course, more importantly than others.

In order to estimate the savings from competition and open rating the various inflationary and growth factors were applied to the 1981 written premiums for each of the lines. The difference between expected and actual results were as follows:

| Line of Business | | 1981 Estimated Savings (In Millions) |
|---|---|---|
| Commercial Multiple Peril | | $15.058 |
| Other Liability | | 8.003 |
| Other Commercial Auto Liability | | 11.547 |
| Commercial Auto Physical Damage | | 3.179 |
| | Total | $37.787 (million) |

In addition we would have savings in these following areas:

| | Other Sources | Estimated Savings |
|---|---|---|
| 1. | Fire and Allied Lines | $ 3.3 (million) |
| 2. | Inland Marine | .2 |
| 3. | 1980 Writings (all lines affected) | 9.4 |
| | Total | $12.9 (million) |

Combined, this results in just under $51 million aggregate savings from July, 1980 through December 31, 1981.

From these figures we observe that the influence of competition and open rating has been significant in lowering costs to the consumer during the period from July, 1980 through December, 1981.

## PERSONNEL OF THE ARIZONA DEPARTMENT OF INSURANCE
(Updated to list organizational changes and current staff)

### EXECUTIVE STAFF:

J. Michael Low, Director

Chester Flaxmayer, Special Assistant to the Director

Deloris Williamson, Chief Deputy Director

Andrea Lazar, Assistant Director

Roy E. Gill, Chief Examiner

William Robinson, Chief Actuary

Jeffrey Larson, Deputy Director

T. E. Morales, Jr., Deputy Director

Walker Riddle, Business Manager
